INDEX

Action potential
  and synaptic activity in spinal motoneurons, 772
Afferent fibers
  degenerating, effect on monosynaptic innervation of motoneurons, 544
Afterdischarge
  epileptiform, production in isolated cerebral cortex, 359
ALBE-FESSARD, D. AND L. KRUGER. Duality of discharges from cat centrum medianum in response to natural and electrical stimulation, 3
Anterior commissure
  recurrent inhibition by stimulation of, 489
Aplysia
  inhibitory synaptic mechanism in, 236
ARAKI, T. AND C. A. TERZUOLO. Membrane currents in spinal motoneurons associated with the action potential and synaptic activity, 772
ASANUMA, H. AND O. OKUDA. Effects of transcallosal volleys on pyramidal tract cell activity of cat, 198
Atropine
  action on IPSP, 236
Auditory cortex
  tonal pattern discrimination after ablation of, 223
Auditory stimulus
  response in ventral temporal and insular cortex, 21

BAGGISH, M. S., 607
BAUMGARTEN, R. VON, 467
BAUMGARTEN, R. VON, J. D. GREEN, AND M. MANCIA. Recurrent inhibition in the olfactory bulb. II. Effects of antidromic stimulation of commissural fibers, 489.
Behavior
  phototactic, released in frogs by different light colors, 712
Brain areas
  localization in penile erection, 29
Brain damage
  and delayed-reaction performance, 585
Brain stem
  "cardiovascular" neurons, definition of, 193
BROOKHART, J. M., 790
BURGESS, P. R., 636, 392
BURNS, B. D., 359
BURNS, B. D., W. HERON, AND R. PRITCHARD. Physiological excitation of visual cortex in cat's unanaesthetized isolated forebrain, 165

Calcium
  in excitation of frog nerve fiber, 94
Cardiovascular control
  brain-stem neurons in, 182
Cardiovascular neurons: *see* Vasomotor mechanisms
Centrum medianum
  single-unit discharge pattern after stimulation, 3
Cerebral cortex
  isolated, epileptiform afterdischarges in, 359
  metabolism and function under local perfusion, 651
  pyramidal tract activity and stimulation of, 198
  second motor area in the dog, 607
Cerebellum
  transient influence on stretch responses, 684
Cholinergic transmitter
  inhibitory synaptic, in molluscan nervous system, 236
Circus movements
  after electrical stimulation of midbrain, 152
Cochlear nuclei
  ventral, response to sound stimulation, 515
COHEN, B., 621
Conditioning
  antidromic, effect on motoneurons and interneurons, 636
Conduction
  velocity, independence of, in myelinated nerve fibers, 805
Cones
  color-sensitive in turtles, recovery rates from red and orange light, 600
Corpus callosum
  pyramidal tract activity in stimulation of, 198
  section of, tactile conditioned responses and, 530
  transmission of tactual learning, 380
CRESCITELLI, F. Some characteristics of on- and off-responses to flashes of colored light in ground squirrel visual system, 141

Cutaneous sensations
projected to gracilis neurons, 337
Cutaneous stimulation
ipsilateral, pyramidal tract neuron activation by, 501

DAVIES, P. W. AND R. G. GRENELL. Metabolism and function in the cerebral cortex under local perfusion, with the aid of an oxygen cathode for surface measurement of cortical oxygen consumption, 651
Delayed reaction
spatial, variability in normal and brain-damaged monkeys, 585
Dendrites
hypocampal neurons, electrophysiological properties of, 209
DIAMOND, I. T., J. M. GOLDBERG, AND W. D. NEFF. Tonal discrimination after ablation of auditory cortex, 223
Diencephalon
microelectrode recordings in frog, 699
retinal projection to, and phototactic behavior, 712
DOCTER, R. F., 324
DODT, E. AND E. HEERD. Mode of action of pineal nerve fibers in frogs, 405
Dorsal column
cutaneous projection to second-order neurons of, 337

EBNER, F. F. AND R. E. MYERS. Corpus callosum and the interhemispheric transmission of tactual learning, 380
ECCLES, J. C., R. M. ECCLES, AND C. N. SHEALY. An investigation into the effect of degenerating primary afferent fibers on the monosynaptic innervation of motoneurons, 544
ECCLES, J. C., R. M. ECCLES, C. N. SHEALY, AND W. D. WILLIS. Experiments utilizing monosynaptic excitatory action on motoneurons for testing hypotheses relating to specificity of neuronal connections, 559
ECCLES, R. M., 544, 559
Electrical stimulation
of a second motor area in dog cortex, 607
Electrical stimulus
antidromic, of lateral olfactory bulb, recurrent inhibition following, 467
centrum medianum unit response to, 3
contralateral cortex, effect on pyramidal tract cells, 198
in localization of genital function, 29
Mauthner cell, intra- and extracellular response to, 732
midbrain, turning movements following, 152
production of epileptiform afterdischarges in isolated cerebral cortex, 359
EEG
arousal, correlation with gamma motoneuron activity, 309
visual cortex neuronal activity during sleep, 812
Electroreceptors
physiological properties in gymnotids, 430
Electroretinography
recovery rates from red and orange light in turtles, 600
EPSP
apical dendrites of hippocampal neurons, 209
interactions generated at various sites on frog motoneurons, 790
ESPLIN, D. W. Independence of conduction velocity among myelinated fibers in cat nerve, 805
EVARTS, E. V. Activity of neurons in visual cortex of the cat during sleep with low voltage fast EEG activity, 812
Evoked potentials
on- and off-responses to colored light flashes, 141
optic, as function of reticular activity, 324
Excitation
K, Ca, and Na in frog nerve fiber during, 94
K mechanism activity in single Ranvier node during, 67
monosynaptic, in specificity of neuronal connections, 559
physiological, of visual cortex in isolated forebrain of unanesthetized cat, 165

Facilitation
recurrent, motoneuron changes in synaptic mechanism of, 392
FADIGA, E. AND J. M. BROOKHART. Interactions of excitatory postsynaptic potentials generated at different sites on the frog motoneuron, 790
FORBES, A., E. YAMASHITA, N. HAYES, S. E. FOX, AND C. MAHAN. Electroretinogram of fresh-water turtles: Recovery rates from red and orange light adaptation, 600
Forebrain
neurologically isolated, excitation of visual cortex, 165
FOX, S. E., 600
FRENCH, G. M., AND H. F. HARLOW. Variability of delayed-reaction performance in normal and brain-damaged rhesus monkeys, 585
FUJITA, Y. AND H. SAKATA. Electrophysiological properties of CA1 and CA2

apical dendrites of rabbit hippocampus, 209.
FURSHPAN, E. J. AND T. FURUKAWA. Intracellular and extracellular responses of the several regions of the Mauthner cell of the goldfish, 732
FURUKAWA, T., 732
FUSTER, J. M., AND R. F. DOCTER. Variations of optic evoked potentials as a function of reticular activity in rabbits with chronically implanted electrodes, 324

GALAMBOS, R., 515
Gamma motoneurons
central influence upon, 309
Gamma motor system: *see* Gamma motoneurons
Ganglia
electrotonic transmission between two nerve cells, in leech, 721
Generator potential
relation to stimulus strength and impulse frequency in *Crustacea* stretch receptor, 56
Genital function
localization of brain areas in, 29
GENTRY, J. R., 337
GERSCHENFELD, H. M., 236
GLASER, G. H., 684
Glia cells: *see* Neuroglia
GOLDBERG, J. M., 223
GREEN, J. D., 489
GREEN, J. D., M. MANCIA, AND R. VON BAUMGARTEN. Recurrent inhibition in the olfactory bulb. I. Effects of antidromic stimulation of the lateral olfactory tract, 467.
GRENELL, R. G., 651
Gymnotid
properties of electroreceptors in, 430

HAGIWARA, S., K. KUSANO, AND K. NEGISHI. Physiological properties of electroreceptors of some gymnotids, 430
HAGIWARA, S. AND H. MORITA. Electrotonic transmission between two nerve cells in leech ganglion, 721
HARLOW, H. F., 585
HAYES, N., 600
HEERD, E., 405
HERON, W., 165
Hexamethonium
action on IPSP, 236
HIGGINS, D. C., L. D. PARTRIDGE, AND G. H. GLASER. A transient cerebellar influence on stretch responses, 684
HILD, W. AND I. TASAKI. Morphological and physiological properties of neurons and glial cells in tissue culture, 277
Hippocampus
apical dendrites in, properties of, 209
HONGO, T., 309
HYDE, JANE E. AND S. TOCZEK. Functional relation of interstitial nucleus to rotatory movements evoked from zona incerta stimulation, 455
Hypothalamus
rotation evoked by zona incerta stimulation, 455

Impulse frequency
relation to stimulus strength and generator potential in *Crustacea* stretch receptor, 56
Inhibitory synapses: *see* Synapse, inhibitory
Insular cortex
auditory response fields, 21
Interneurons
antidromic conditioning of, 636

KATZ, D. B., 607
KENNEDY, T. T., 501
KRUGER, L., 3
KUBOTA, K., 309, 430

Lateral olfactory tract
antidromic stimulation of, 467
Learning
ablation studies, 585
tactual, corpus callosum and interhemispheric transmission of, 380
Light
blue-sensitive system in the frog, 699
different colors in phototactic behavior of frogs, 712
sensitivity of pineal organ of frog, 405
Light adaptation
red and orange, recovery rates from, 600
Light simulus
response to *see* Retina

MACLEAN, P. D. AND D. W. PLOOG. Cerebral representation of penile erection, 29
MAHAN, C., 600
MANCIA, M., 467, 489
MEGIRIAN, D. Bilateral facilitatory and inhibitory skin areas of spinal motoneurones of cat, 127
MEIKLE, T. H., JR., J. A. SECHZER, AND E. STELLAR. Interhemispheric transfer of tactile conditioned responses in corpus callosum-sectioned cats, 530
Membrane current
in spinal motoneurons, associations with action potential and synaptic activity, 772

Mesencephalon
  circus movements following electrical stimulation of, 152
  head turning following lesions, 152
Microelectrodes
  recordings from frog diencephalon, 699
Midbrain: *see* Mesencephalon
Monosynaptic innervation
  of motoneurons, effects of degenerating afferent fibers on, 544
Monosynaptic patterns
  testing hypotheses of neuronal connection specificity, 559
MORITA, H., 721
Motoneurons: *see also* Gamma motoneurons; Spinal motoneurons
  antidromic conditioning of, 636
  disinhibition of, in recurrent facilitation, 392
  EPSP's generated at different sites on, 790
  monosynaptic excitation of, and specificity of neuronal connections, 559
  monosynaptic innervation of, affected by degenerating afferents, 544
MOUSHEGIAN, G., A. RUPERT, AND R. GALAMBOS. Microelectrode study of ventral cochlear nucleus of the cat, 515
MUNTZ, W. R. A. Effectiveness of different colors of light in releasing the positive phototactic behavior of frogs, and a possible function of the retinal projection to the diencephalon, 712
MUNTZ, W. R. A. Microelectrode recordings from the diencephalon of the frog (*Rana pipiens*), and a blue-sensitive system, 699
Muscle spindles
  effect of gamma motoneurons upon activity of, 309
MYERS, R. E., 380

Natural stimulus
  centrum medianum unit response to, 3
  of trigeminal nucleus, response in cat, 110
NEFF, W. D., 223
NEGISHI, K., 430
Nerve fibers
  K, Ca, and Na in frog, during excitation, 94
  lateral line, properties of electroreceptors in, 430
  myelinated, conduction velocity in, 805
  pineal, light sensitivity of, 405
Neural activity
  model of, after auditory cortex ablation, 223
Neural representation
  of penile erection, 29
Neuroglia
  properties of cells in tissue culture, 277
Neurons
  gracilis, cutaneous projection to, 337
  leech ganglion, electrotonic transmission between, 721
  Mauthner, intra- and extracellular response, 732
  properties in tissue culture, 277
  thalamic, recruiting activity in, 621
  visual cortical, activity during sleep with low voltage fast EEG, 812
  visual cortical, excitation by light, 165
Nodes of Ranvier
  potassium mechanism in single, during excitation, 77
NOSS, C. G., 607
Nucleus interstitialis
  rotation from zona incerta stimulation and, 455

OKUDA, O., 198
Olfactory bulb
  recurrent inhibition in, 467, 489
    antidromic stimulation of lateral olfactory tract, 467
    produced by stimulation of commissural fibers, 489
OOYAMA, H., 94
OOYAMA, H. AND E. B. WRIGHT. Activity of potassium mechanism in single Ranvier node during excitation, 67
Optic pathway
  evoked potentials of, effect of reticular activity upon, 324
Oxygen consumption
  of cerebral cortex, 651

PARTRIDGE, L. D., 684
PATTON, H. D., A. L. TOWE, AND T. T. KENNEDY. Activation of pyramidal tract neurons by ipsilateral cutaneous stimuli, 501
Penile erection
  cerebral representation of, 29
Perfusion
  local, of cerebral cortex, 651
PERL, E. R., D. G. WHITLOCK, AND J. R. GENTRY. Cutaneous projection to second-order neurons of the dorsal column system, 337
Pineal body, frog
  sensory function of, 405
PINSKY, C. AND B. D. BURNS. Production of epileptiform afterdischarges in cat's cerebral cortex, 359
PLOOG, D. W., 29
Potassium
  excitation of frog nerve fiber, 94
  mechanism in single Ranvier node during excitation, 67

Potential
demarcation, of cerebral cortex, 651
PRITCHARD, R., 165
PURPURA, D. P. AND B. COHEN. Intracellular recording from thalamic neurons during recruiting responses, 621
Pyramidal tract
neuronal activation by ipsilateral cutaneous stimulation, 501
transcallosal volleys on activity of, 198

Recruiting response
in thalamic neurons, 621
Reticular activity
optic evoked potentials as function of, 324
Retina
on- and off-responses to colored light, 141
Retinal projection
to diencephalon, and phototactic behavior, 712
ROBERT, B. C., 607
Rotatory movements
evoked from zona incerta stimulation, 455
RUPERT, A., 515

SAKATA, K., 209

SECHZER, J. A., 530
SHEALY, C. N., 544, 559
SHIMAZU, H., T. HONGO, AND K. KUBOTA. Two types of central influences on gamma motor system, 309
SINDBERG, R. M., AND R. F. THOMPSON. Auditory response fields in ventral temporal and insular cortex of cat, 21
Skin areas
bilateral receptive, in spinal cats, 127
SKULTETY, F. M. Circus movements in cats following midbrain stimulation through chronically implanted electrodes, 152
Sleep
EEG and visual cortex neuronal activity during, 812
Sodium
in excitation of frog nerve fiber, 94
Sound stimulation
response of ventral cochlear nucleus to, 515
Spinal cord
disinhibition in, 392
Spinal motoneurons
bilateral facilitatory and inhibitory skin areas, in cats, 127
membrane currents of, associated with action potential and synaptic activity, 772
Spinal reflex
transmission, in young and adult cat, 263
STELLAR, E., 530
Stimulus strength
relation to generator potential and impulse frequency in *Crustacea* stretch receptor, 56
Stretch receptor
properties of *Crustacea*, 56
Stretch response
transient cerebellar influence on, 684
Synapse, inhibitory
cholinergic, in molluscan nervous system, 236
Synaptic activity
and action potential, in membrane currents of spinal motoneurons, 772
Synaptic mechanisms
Mauthner cell of goldfish, 732
Synaptic transmission
inhibitory, cholinergic mechanism of, 236

Tactile conditioned response
in corpus callosum-sectioned cats, interhemispheric transfer, 530

Thalamic degeneration
after auditory cortex ablation, 223
THOMPSON, R. F., 21
Tissue culture
neurons and glial cells, properties of, 277
TOCZEK, S., 455
Tonal pattern discrimination
after auditory cortical ablation, 223
TOWE, A. L., 501
Transmission
electrotonic, between two nerve cells in leech ganglion, 721
spinal reflex, in young and adult cat, 263
of tactual learning, corpus callosum in, 380
Trigeminal nucleus
rostro-caudal zones (four), response to natural stimulus, and a paradox, 110
TRUONG, X. T., 607
d-Tubocurarine
action on IPSP, 236

Vasomotor mechanisms
"cardiovascular" neurons, presence in brain-stem structures, 182
Ventral temporal cortex
auditory response fields, 21

Visual cortex
electrical potentials evoked by colored light flashes, 141
excitation of, in unanesthetized forebrain, 165
neuronal activity during sleep with low voltage fast EEG activity, 812
Visual system
on- and off-responses to colored light, 141
reticular influences of, 324

Contents of Volume XXV

NO. 1. JANUARY 1962

Announcement 1
Duality of unit discharges from cat centrum medianum in response to natural and electrical stimulation. ALBE-FESSARD, D. AND L. KRUGER 3
Auditory response fields in ventral temporal and insular cortex of cat. SINDBERG, R. M. AND R. F. THOMPSON 21
Cerebral representation of penile erection. MACLEAN, P. D. AND D. W. PLOOG 29
Relation between stimulus strength, generator potential and impulse frequency in stretch receptor of *Crustacea*. TERZUOLO, C. A. AND Y. WASHIZU 56
Activity of potassium mechanism in single Ranvier node during excitation. OOYAMA, H. AND E. B. WRIGHT 67
Role of cations, potassium, calcium, and sodium during excitation of frog single nerve fiber. WRIGHT, E. B. AND H. OOYAMA 94
Four aspects of trigeminal nucleus and a paradox. WALL, P. D. AND A. TAUB 110
Bilateral facilitatory and inhibitory skin areas of spinal motoneurones of cat. MEGIRIAN, D. 127
Reviews 138
Notices 138

NO. 2. MARCH 1962

Some characteristics of on- and off-responses to flashes of colored light in ground squirrel visual system. CRESCITELLI, F. 141
Circus movements in cats following midbrain stimulation through chronically implanted electrodes. SKULTETY, F. M. 152
Physiological excitation of visual cortex in cat's unanaesthetized isolated forebrain. BURNS, B. D., W. HERON, AND R. PRITCHARD 165
"Cardiovascular" neurones in brain stem of cat. SALMOIRAGHI, G. C. 182
Effects of transcallosal volleys on pyramidal tract cell activity of cat. ASANUMA, H. AND O. OKUDA 198
Electrophysiological properties of CA1 and CA2 apical dendrites of rabbit hippocampus. FUJITA, Y. AND H. SAKATA 209
Tonal discrimination after ablation of auditory cortex. DIAMOND, I. T., J. M. GOLDBERG, AND W. D. NEFF 223
A cholinergic mechanism of inhibitory synaptic transmission in a molluscan nervous system. TAUC, L. AND H. M. GERSCHENFELD 236
Reflex transmission in the kitten. WILSON, V. J. 263
Morphological and physiological properties of neurons and glial cells in tissue culture. HILD, W. AND I. TASAKI 277
Reviews 305

NO. 3. MAY 1962

Two types of central influences on gamma motor system. SHIMAZU, H., T. HONGO, AND K. KUBOTA 309
Variations of optic evoked potentials as a function of reticular activity in rabbits with chronically implanted electrodes. FUSTER, J. M. AND R. F. DOCTER 324
Cutaneous projection to second-order neurons of the dorsal column system. PERL, E. R., D. G. WHITLOCK, AND J. R. GENTRY 337
Production of epileptiform afterdischarges in cat's cerebral cortex. PINSKY, C. AND B. D. BURNS 359
Corpus callosum and the interhemispheric transmission of tactual learning. EBNER, F. F. AND R. E. MYERS 380
Disinhibition in the cat spinal cord. WILSON, V. J. AND P. R. BURGESS 392
Mode of action of pineal nerve fibers in frogs. DODT, E. AND E. HEERD 405
Physiological properties of electroreceptors of some gymnotids. HAGIWARA, S., K. KUSANO, AND K. NEGISHI 430
OTTO LOEWI, 1873–1961 450
Announcements 454

NO. 4. JULY 1962

Functional relation of interstitial nucleus to rotatory movements evoked from zona incerta stimulation. HYDE, JANE E. AND S. TOCZEK 455
Recurrent inhibition in the olfactory bulb. I. Effects of antidromic stimulation of the lateral olfactory tract. GREEN, J. D., M. MANCIA, AND R. VON BAUMGARTEN 467
Recurrent inhibition in the olfactory bulb. II. Effects of antidromic stimulation of commissural fibers. BAUMGARTEN, R. VON, J. D. GREEN, AND M. MANCIA 489
Activation of pyramidal tract neurons by ipsilateral cutaneous stimuli. PATTON, H.D., A. L. TOWE, AND T. T. KENNEDY 501
Microelectrode study of ventral cochlear nucleus of the cat. MOUSHEGIAN, G., A. RUPERT, AND R. GALAMBOS 515
Interhemispheric transfer of tactile conditioned responses in corpus callosum-sectioned cats. MEIKLE, T. H., JR., J. A. SECHZER, AND E. STELLAR 530
An investigation into the effect of degenerating primary afferent fibers on the monosynaptic innervation of motoneurons. ECCLES J. C., R. M. ECCLES, AND C. N. SHEALY 544
Experiments utilizing monosynaptic excitatory action on motoneurons for testing hypotheses relating to specificity of neuronal connections. ECCLES, J. C., R. M. ECCLES, C. N. SHEALY, AND W. D. WILLIS 559
Obituary 581
Reviews 582

NO. 5. SEPTEMBER 1962

Variability of delayed-reaction performance in normal and brain-damaged rhesus monkeys. FRENCH, G. M. AND H. F. HARLOW 585
Electroretinogram of fresh-water turtles: Recovery rates from red and orange light adaptation. FORBES, A., E. YAMASHITA, N. HAYES, S. E. FOX, AND C. MAHAN 600
A second motor area in the cerebral cortex of the dog. WALKER, S. M., M. S. BAGGISH, D. B. KATZ, C. G. NOSS, B. C. ROBERT, AND X. T. TRUONG 607
Intracellular recording from thalamic neurons during recruiting responses. PURPURA, D. P. AND B. COHEN 621
Effects of antidromic conditioning on some motoneurons and interneurons. WILSON, V. J. AND P. R. BURGESS 636
Metabolism and function in the cerebral cortex under local perfusion, with the aid of an oxygen cathode for surface measurement of cortical oxygen consumption. DAVIES, P. W. AND R. G. GRENELL 651
A transient cerebellar influence on stretch responses. HIGGINS, D. C., L. D. PARTRIDGE, AND G. H. GLASER 684
Reviews 693
Announcements 698

NO. 6. NOVEMBER 1962

Microelectrode recordings from the diencephalon of the frog (*Rana pipiens*), and a blue-sensitive system. MUNTZ, W. R. A. 699
Effectiveness of different colors of light in releasing the positive phototactic behavior of frogs, and a possible function of the retinal projection to the diencephalon. MUNTZ, W. R. A. 712
Electrotonic transmission between two nerve cells in leech ganglion. HAGIWARA, S. AND H. MORITA 721
Intracellular and extracellular responses of the several regions of the Mauthner cell of the goldfish. FURSHPAN, E. J. AND T. FURUKAWA 732
Membrane currents in spinal motoneurons associated with the action potential and synaptic activity. ARAKI, T. AND C. A. TERZUOLO 772
Interactions of excitatory postsynaptic potentials generated at different sites on the frog motoneuron. FADIGA, E. AND J. M. BROOKHART 790
Independence of conduction velocity among myelinated fibers in cat nerve. ESPLIN, D. W. 805
Activity of neurons in visual cortex of the cat during sleep with low voltage fast EEG activity. EVARTS, E. V. 812
